STYLE MEETS FUNCTION

With boldness and innovation at our heart, we take timeless bathroom brassware essentials and create modern, stylish pieces. Our portfolio of four iconic ranges, Domo, Decca, Bank and Zurich are available in four bold finishes: Brushed Brass, Brushed Nickel, Gunmetal and Chrome.

Our industrial-inspired identity stemmed from Coalbrookdale in the Midlands, the home of

the iconic Ironbridge Gorge and the birthplace of the Industrial Revolution. We felt that this reflected our products perfectly: solid, reliable and well-engineered.

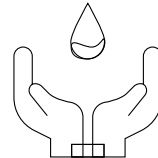

Coalbrook is sold exclusively via our specially selected partners. You can find your nearest stockist on our website or contact us and we'll put you in touch with someone who can help.

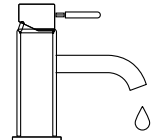

DESIGN

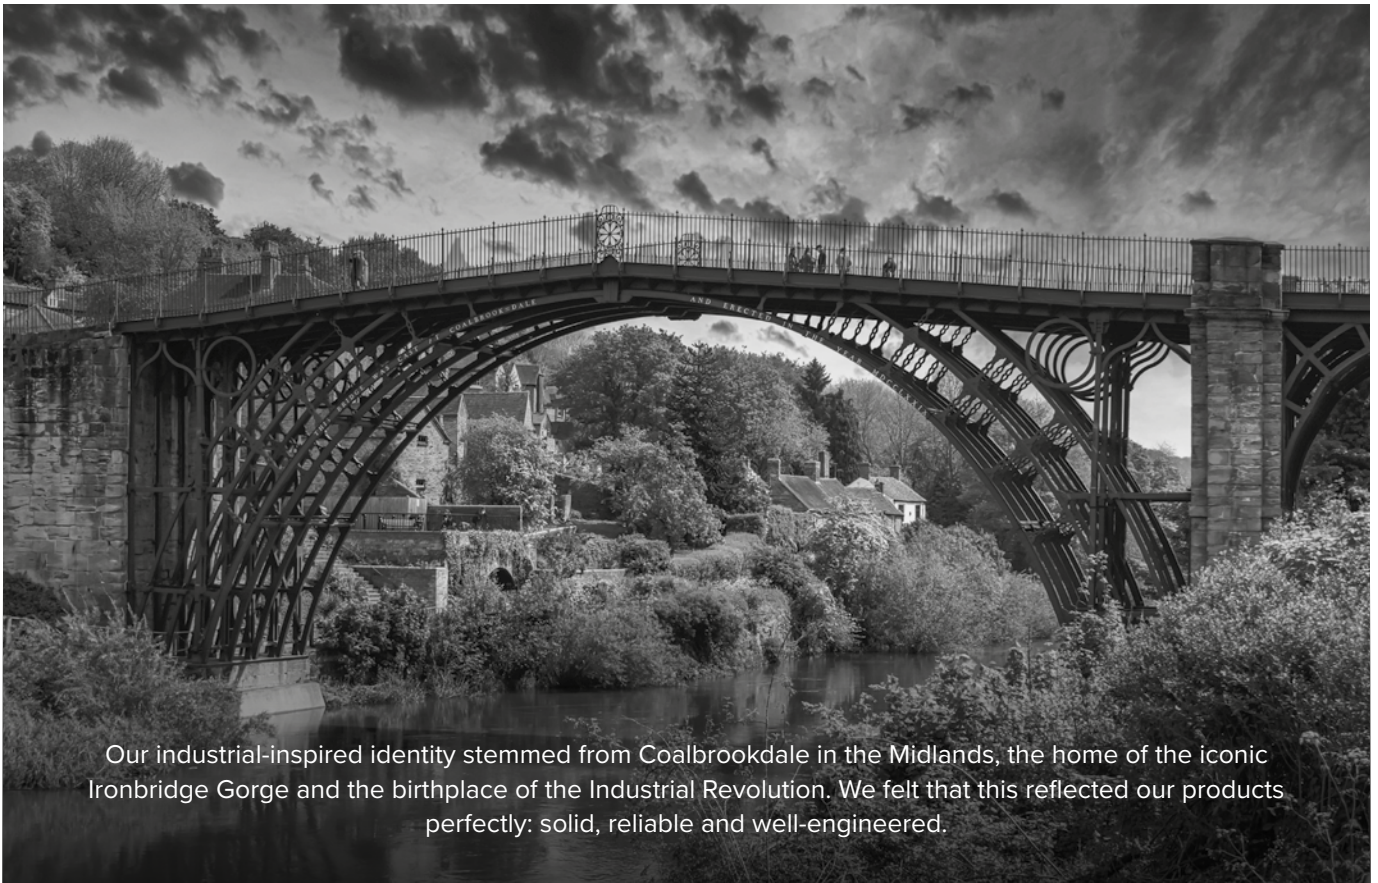

QUALITY

SUSTAINABILITY

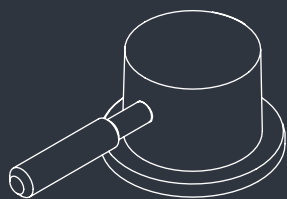

FUNCTION

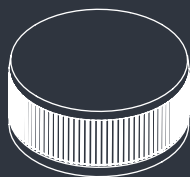

Our industrial-inspired identity stemmed from Coalbrookdale in the Midlands, the home of the iconic Ironbridge Gorge and the birthplace of the Industrial Revolution. We felt that this reflected our products perfectly: solid, reliable and well-engineered.

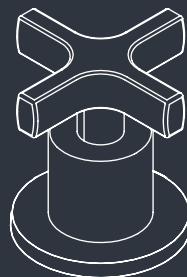

FOUR RANGES

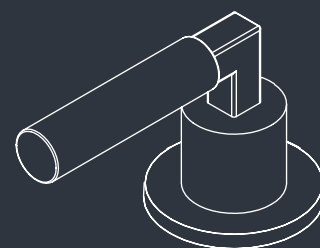

DOMO

DECCA

BANK

ZURICH

Coalbrook's portfolio of four iconic ranges, Domo, Decca, Bank and Zurich are available in four bold finishes: Brushed Brass, Brushed Nickel, Gunmetal and Chrome.

All ranges have been created to provide something for every bathroom, including deck and wall mounted basin mixers, deck, wall and freestanding bath fillers, showers and a complimentary accessories range.

Crafted by experts, these products have been through various stages from concept through to 3D prototype with design always at the forefront.

All taps, valves and showers are WRAS approved and come with a 20 year guarantee, further proof that these products have been manufactured to not only look good, but to last.

FOUR FINISHES

BRUSHED
NICKEL

GUNMETAL

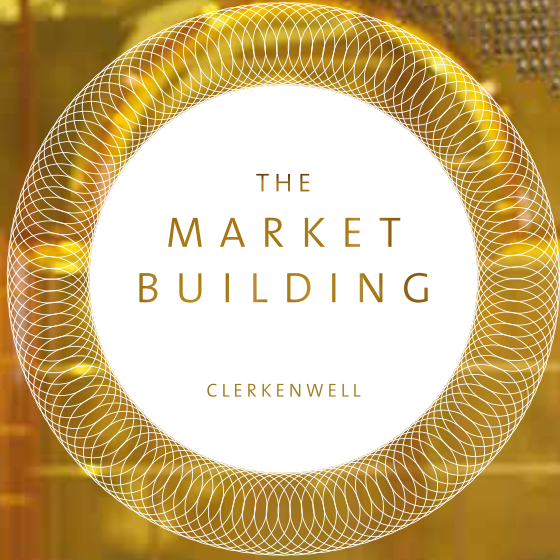

CHROME

BRUSHED
BRASS

Chrome the exception, all finishes are PVD coated, providing longevity and durability for everyday use. PVD coating involves bonding the finish to the brassware, ultimately preventing discolouration and tarnishing. The PVD process is more environmentally friendly than classic plating with less contaminants.

Our Chrome finish is a timeless classic, fitting perfectly in almost every bathroom setting. Brushed Nickel offers a subtle golden tint as a difference to Chrome. Gunmetal's dark and sleek tones add the perfect finish and Brushed Brass adds that extra touch of class to any bathroom.

THE
MARKET
BUILDING

CLERKENWELL

THE MARKET BUILDING

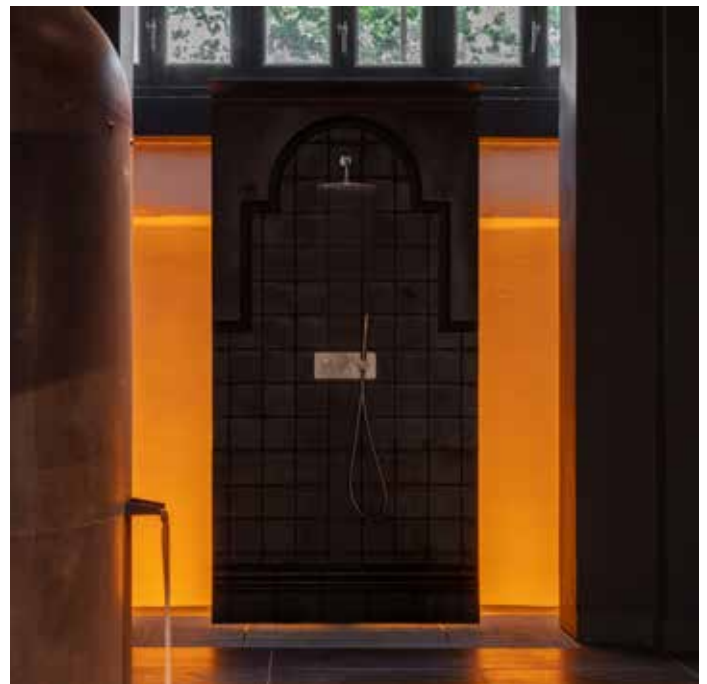

The Market Building in Clerkenwell is Coalbrook's London base, showcasing the product range and celebrating our brand's industrial heritage.

Designed to appear like an industrial landscape, shower displays are mounted onto 'chimneys' and situated beneath chainmail curtains representing smog, whilst the windows feature vibrant red and amber resin, which glow like furnaces.

A solid stone, post-tensioned staircase with rough quarried edges leads down to the basement level, where two large industrial boiler-like structures house working tap displays.

Visit www.themarketbuilding.com to find out more and follow us on Instagram [@themarketbuilding](https://www.instagram.com/themarketbuilding).

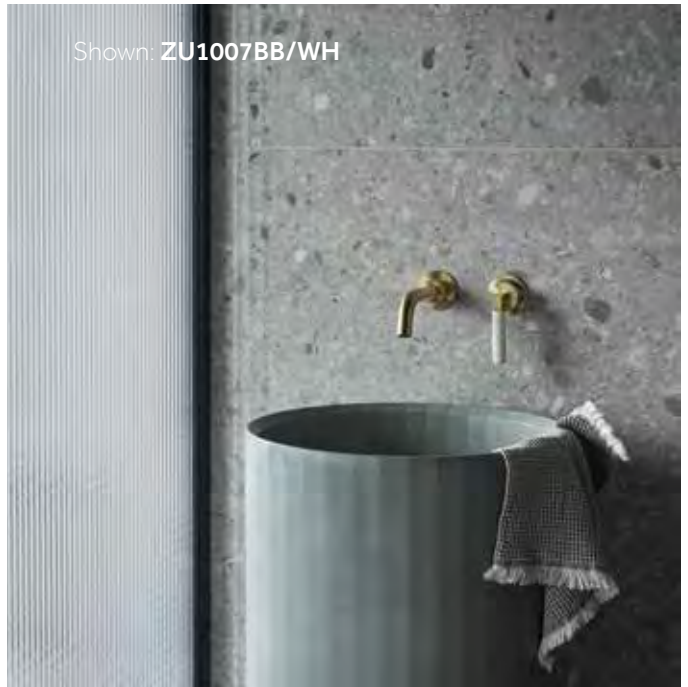

DISCOVER COALESCENCE

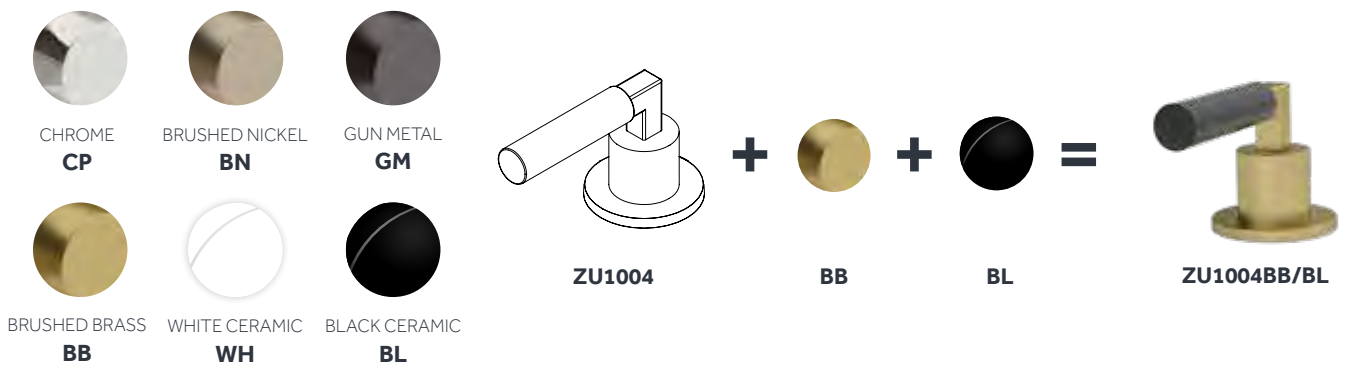

The range is based on the **Zurich** basin and bath mixer levers and enables you to select your preferred **combination** of mixer and lever finish, including a ceramic lever option, made in England from **fine china**, the choice is yours.

Shown: **ZU1005BB/WH**

options: Twenty-four mixer and lever combinations for both basin and bath mixers in the Zurich range.

method: Choose your mixer from a range of four finishes along with a choice of six lever finishes including both brassware and ceramic options.

COALESCENCE PRICES

Single finish lever upgrade £18*
(CP, BN, GM, BB)

Double finish lever upgrade, 2x £18 £36*

* price extra from basic lever

Single ceramic lever upgrade £36*
(WH, BL)

Double ceramic lever upgrade, 2x £36 £72*
(WH, BL)

BUYER'S GUIDE

BASIN MIXERS

DECK MOUNTED

Deck mounted basin mixers are mounted either directly on the basin or if a countertop or under counter basin is used then they are mounted to the worktop.

1 TAP HOLE

Mono basin mixers are typically used with standard basins with 1 tap hole. In the Coalbrook range you have a standard mono basin mixer and a swivel spout mixer that allows you to move the spout out of the way or to help in cleaning.

2 TAP HOLE (2TH)

Two hole basin mixers are typically used with under counter basins as they allow the spout and the control to be placed separately for ease of use. A high spout is also available for use with counter top basins.

3 TAP HOLE (3TH)

Three hole basin mixers allow you to control the hot and cold water independently to get the perfect mix. Coalbrook handles and spouts are interchangeable allowing any combination of styles.

FIXED OR SWIVEL?

Fixed or swivel spouts are available across some of our basin and bath mixers. The swivel option allows you to move the spout up to 180°.

WALL MOUNTED

Wall mounted basin mixers are mounted to the wall to give a streamlined, minimalist look.

When choosing a wall mounted basin mixer it is important to check your basin is compatible and that the spout projection is sufficient.

2 TAP HOLE (2TH)

The two hole basin mixer allows you to select the perfect temperature with one hand. The lever is always on the right hand side.

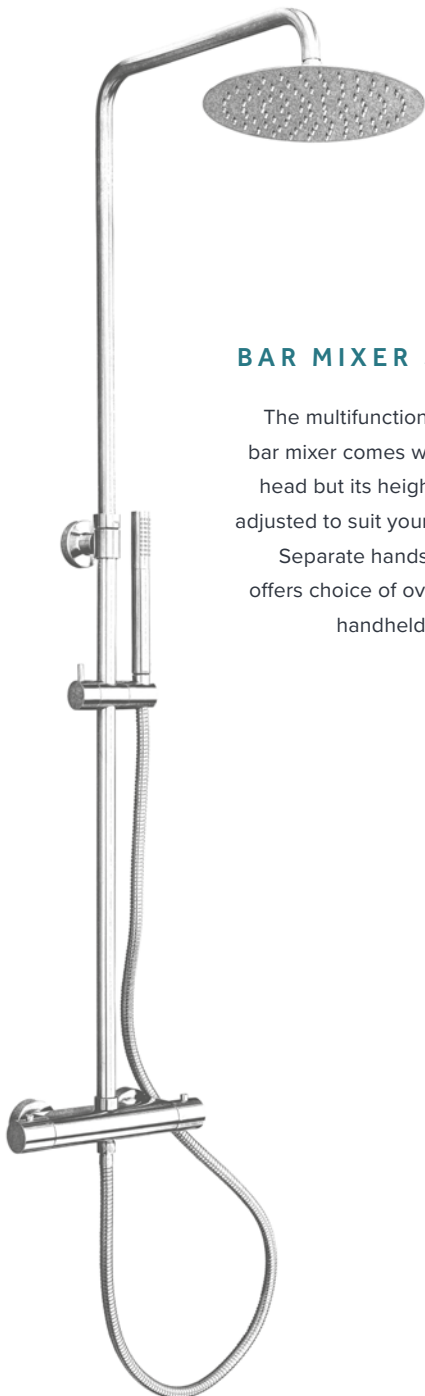

3 TAP HOLE (3TH)

Three hole basin mixers allow you to control the hot and cold water independently to get the perfect mix.

SHOWERING

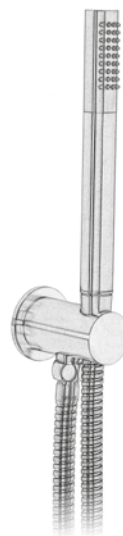

When designing your shower setup, it is important to think about all the shower users and the different ways they use the shower. If the shower is above a bath, the shower valve can also be used to control the bath overflow filler.

BAR MIXER SYSTEM

The multifunction shower bar mixer comes with a fixed head but its height can be adjusted to suit your bathroom.

Separate handshower offers choice of overhead or handheld.

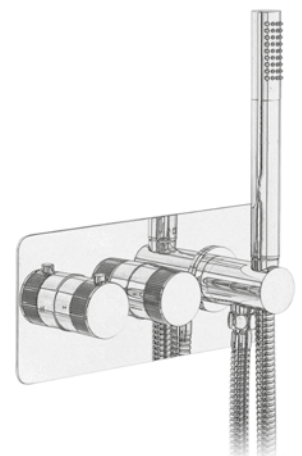

Fixed shower heads can be wall or ceiling mounted with varying size showerheads.

1, 2 OR 3 OUTLET

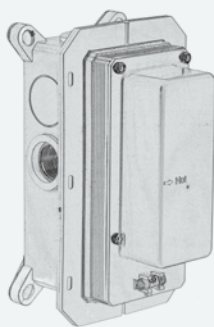

Our shower valves can control up to three separate showering elements from one valve.

2 OUTLET WITH HANDSHOWER

C-BOX

FOR SHOWER VALVES

The C-box is designed to allow easy installation of a shower valve within a wall. The box can be secured either to the back of the recess or to the front plasterboard at depths from 77mm – 92mm. The built in spirit level on the dust cover ensures the valve is installed level.

BATH FILLERS

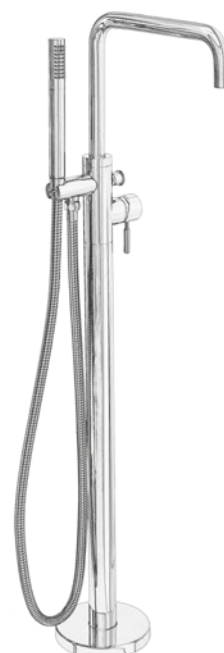

BATH OVERFLOW FILLER

The bath overflow filler fills the bath from the overflow – ensuring the most minimal of designs and no brassware mounted to the sides of the bath.

5 HOLE BATH FILLER (5TH)

The 5 hole bath filler allows you to control your bath spout and a pull out handshower to enable you to fill your bath and use the handshower from the same controls.

FREESTANDING MIXER

Typically used with freestanding baths, the freestanding bath shower mixer gives a luxury feel with a swivel spout and a separate shower handset.

3 TAP HOLE (3TH)

New to the range, our deck and wall mounted bath mixers complete with 190mm spout allow you to control the hot and cold water for your bath independently to get the perfect mix.

DECK OR WALL MOUNTED VALVES

You can control your overflow filler or separate bath spout using these valves.

ZURICH RANGE

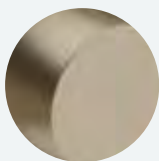

An ode to Swiss precision and high quality design, the Zurich collection was created with the same exceptional attention to detail. Featuring well-crafted levers, with a square handle fitted into a round hole, every twist and turn has been precisely mapped and thought through with our Zurich range.

The Zurich range is available in four finishes:

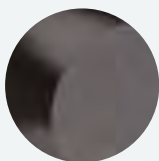

CP Chrome

BN Brushed Nickel

BB Brushed Brass

GM Gunmetal

COALESCENCE

The Coalescence range is based on the **Zurich** basin and bath mixer levers and enables you to select your preferred **combination** of mixer and lever finish, including a ceramic lever option, made in England from **fine china**, the choice is yours.

BB BN GM £950

SHOWER COMPONENTS

Here are our non-range specific shower and bath items which can be used with all ranges. Domo, Decca and Bank have their own specific shower valve trimsets which can be found in their range sections.

The C-Box is designed to allow easy installation of a shower valve within a wall. The box can be secured either to the back of the recess or to the front plasterboard at depths from 77mm – 92mm. The built-in spirit level on the dust cover ensures the valve is installed level.

C-BOX – SHOWER VALVE

- 1 OUTLET | CO3001 | £315
- 2 OUTLET | CO3002 | £345
- 3 OUTLET | CO3003 | £365

The C-Box is designed to allow easy installation of a shower valve within a wall. The box can be secured either to the back of the recess or to the front plasterboard at depths from 77mm – 92mm. The built-in spirit level on the dust cover ensures the valve is installed level.

OUR GUARANTEE

All Coalbrook products come with a 20 year guarantee as standard from the date of purchase. Within this guarantee period, Coalbrook will provide any replacement parts.

In the event of a replacement part being required, Coalbrook reserves the right to charge in advance for the part pending return and inspection of the failed item to confirm the reason for the replacement. If a manufacturing defect is found then a refund will be processed.

The guarantee is non-transferable i.e. is valid only to the original owner.

All claims under the guarantee should be notified in writing to our aftersales department. This must be done at the latest of the last day of the guarantee period and all claims must provide proof of purchase.

The guarantee does not extend to any consequential loss or damage or refitting costs.

Coalbrook products are continuously improved and developed and we reserved the right to change any aspect of the product without prior notice.

This guarantee is in addition to and does not affect your statutory rights as a consumer.

Get in touch for full aftercare guide.

THE GUARANTEE IS ONLY VALID IF:

- ❑ The product has been installed, used and maintained according to the Coalbrook instructions
- ❑ The product is subjected to normal useage only.
- ❑ The defect is not due to the introduction of foreign objects or substances
- ❑ The defect is not due to use of an unsuitable or inadequate water or power supply.
- ❑ The defect is not due to misuse, attempted repair or neglect
